Associations

Art V. Maxwell . . . New President of CEC, p79, April.
CEAC Views Government Relations: Business Development, *Ralph S. Torgerson,* p122, April.
CEC Annual Convention and Engineering Product Exhibit, p86, April.
Donald P. Schnacke — Innovative Chairman of PEPP, p58, February.
Engineering as a Resource in World Development, *Clarence R. Jones,* p144, June.
Get Out of the Grandstand, *John G. Reutter,* p62, April.
Government — Friend or Foe? *Billy T. Sumner,* p136, May.
How does it feel to be sued?, *A. W. Banister,* p202, March.
The Industrial Consultant — His Challenge as a P. E., *Herbert Egerer,* p130, January.
Is Society Merger Possible?, p100, May.
No More Overhead?, *John G. Reutter,* p74, January.
Now Comes the Nitty Gritty, *Art V. Maxwell,* p40, June.
Of Architects and Other Things, *John G. Reutter,* p32, February.
On Working Together, *Art V. Maxwell,* p32, May.
Our Challenge — The Problem of Environment, *George E. Kassabaum,* p92, January.
Russian Trip Follows FIDIC Meeting, p93, April.
Value Engineering — A New Concept, T. C. Cooke, p92, February.
Victor M. Garcia . . . Disciplines Are United in Puerto Rico, p92, June.
We Need Self-Discipline on Fees and Working Conditions, *Eugene J. Daily,* p50, April.
Where do we go from here? *John G. Reutter,* p104, March.
William L. Holladay . . . The Real Satisfaction of Problem Solving, p84, May.

Business Aspects

Assignment Overseas, *Rennold G. Hanson,* p88, May.
Better Engineering Writing, *Ken Kirkpatrick,* p120, May.
Consortium Buys and Remodels Building, *Ralph S. Torgerson,* p128, June.
Controlling Costs in the CE Firm, *Joseph Schachtman,* p96, January.
The Economist — Fellow Professional on the Design Team, *Stanton R. Smith,* p110, January.
Eliminate Engineering Errors, *Edward B. Howell,* p112, May.
Expert and Attorney — The Need for a Working Relationship, *Glen G. Saunders,* p106, January.
Flexible System Gets the Most From Firm Brochures, *Don V. Roberts,* p72, February.
Get the Most from Semiretirement, *Joseph S. Frost,* p110, April.
Harza Trains Its Clients' Engineers, *Thomas C. Parrish,* p102, January.
Helping Your Client Finance His Project, *Fred E. Eagan,* p66, February.
How Professionals Feel About Nonprofessional Mergers, *Robert M. Collie,* p116, January.
How Professionals Feel About Nonprofessional Mergers, *William J. Fell,* p117, January.
The Mechanics of Merger, *Howard G. Shambaugh,* p82, April.
PRC Acquires Quinton-Budlong; Harris, p116, April.
Retirement . . . A Necessary Fringe Benefit, *Anthony G. Maletta,* p120, June.
Training for Young Professionals, *Roger P. O'Reilly,* p96, April.
The Way to Use Marketing Analysis, *B. R. Smith, Jr.,* p94, April.
What It Takes to Make a Project Engineer, *Herbert F. Gaynor,* p82, February.
Women in Engineering Firms — Their Status and Prospects, *Beatrice Dinerman,* p62, February.

Find them fast... the PLAN HOLD WAY!

Snap out of it! Specify PLAN HOLD Square Tube Files and index the rolled plans on the cabinet door opposite each tube. Square tubes hold more .... permit easy removal without the vexing bind of round tube filing because the corners let you grasp each roll. Choose from 3 tube sizes for rolled plans up to 60" wide, in modular steel cabinets for every filing need. Feeling better? **WRITE FOR CATALOG**

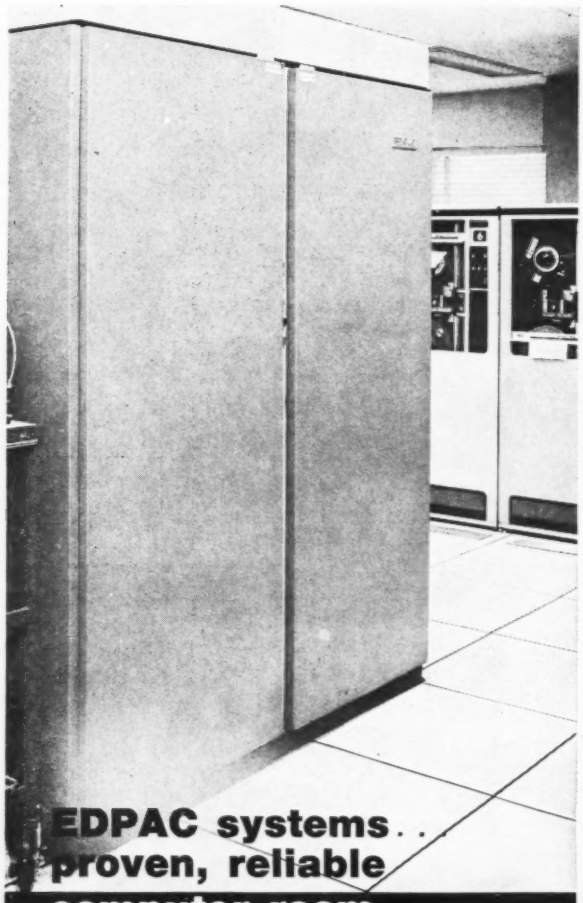
Applying Stereomat Orthophotographs to Highway



EDPAC systems . . proven, reliable

computer room air conditioning

Complete environmental control: cools, heats, humidifies, dehumidifies, filters and provides pressurized fresh air (to prevent dirt infiltration)

offers:

minimum discomfort from drafts
No air turbulence — Portions of air pass directly thru computer

minimum building space requirements
EDPAC systems require a small fraction of space needed by other systems

minimum installation time

but . . .

maximum system reliability
Complete alarm system and redundancy

maximum flexibility
For future expansion — can be removed & reinstalled at minimum cost

maximum control
Provides zone control in large computer rooms, eliminating hot spots, unstable control operation

EDPAC *systems field-proven world-wide*

Need more than one type of AA reinforcing?

If you do—AA has them! Only AA Wire Products offers a full line of quality masonry reinforcing specifically engineered to perform best for each application. BLOK-LOK® for horizontal reinforcing in masonry walls—ECONO-LOK® for composite masonry walls—ADJUSTABLE ECONO-LOK® for non-aligning joints—and TRI-LOK™ for three wire shrinkage control. For standard reinforcements or special wire problems—call AA.

Manufactured in Chicago, Dallas and Ontario, Canada
